Stanhope Centre
Lower Grangegorman,
Dublin 7

Phone: 01-677 39 65
Brief Description of Service

- Stanhope Centre has been providing services for problem drinkers and their families since 1977.
- We specialise in working with individuals and families struggling with alcohol and gambling issues. The service helps people to change their lives by providing addiction treatment and continuing care.
- The centre offers a number of services to individuals, families and couples.
Brief Description of Service

- As individuals experience alcohol related problems with different degrees of severity, the centre offers the possibility for each individual to identify the degree that alcohol is a problem in their life.
- There’s a variety of approaches available for individuals to resolve their problems.
- Stanhope Centre acknowledges that it’s vitally important to provide support, education and counselling to family members who are living with the daily difficulties of a loved-one’s problem drinking.
Client Group

Whom do we work with?

- We are an adult service. We do not accept referrals of clients under age of 18. There’s no upper limit, provided a client’s physical and mental health allows them to attend.

- Services are available to anyone resident in the catchment area of the North Dublin City and County. We also accept referrals from the entire HSE North Eastern Region for our residential programme and family therapy service.
Referrals/Acceptance to program

Are referrals required?

Are self referrals and professional referrals accepted?

Do you have a referral form?

Is there any other info required to access your program?
Is there any reasons why we could not work with someone?

People who are on long-term medication, such as benzos or methadone can only access our Information Programme. All other programmes are abstinence based.
